BOWL17	Comments/additional information about the bowling alley:		

Bowling Alley Checklist Information

- **Bumpers** are rails positioned on each side of the lane to prevent the ball from entering the gutter before it reaches the pins, making it more fun by almost eliminating gutter balls. Many bowling facilities provide the option of having bumpers activated for individual players.

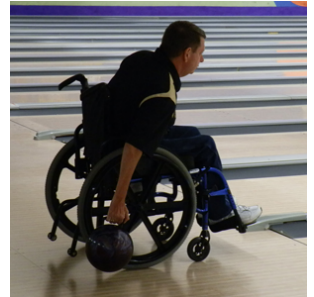

Bumpers

Bowling ball with retractable handle

At least 5 percent, but not less than one, of each type of bowling lane must be accessible. Unlike other areas of sport activity, only those team or player seating areas that serve accessible lanes must be connected with an accessible route and comply with seating requirements. Spectator seating in bowling facilities is addressed in ADAAG and will require wheelchair spaces, companion seating, and designated aisle seats.

ACCESSIBLE ROUTE CONNECTING ACCESSIBLE LANES AND TEAM PLAYER AREAS
